

Payments and collections

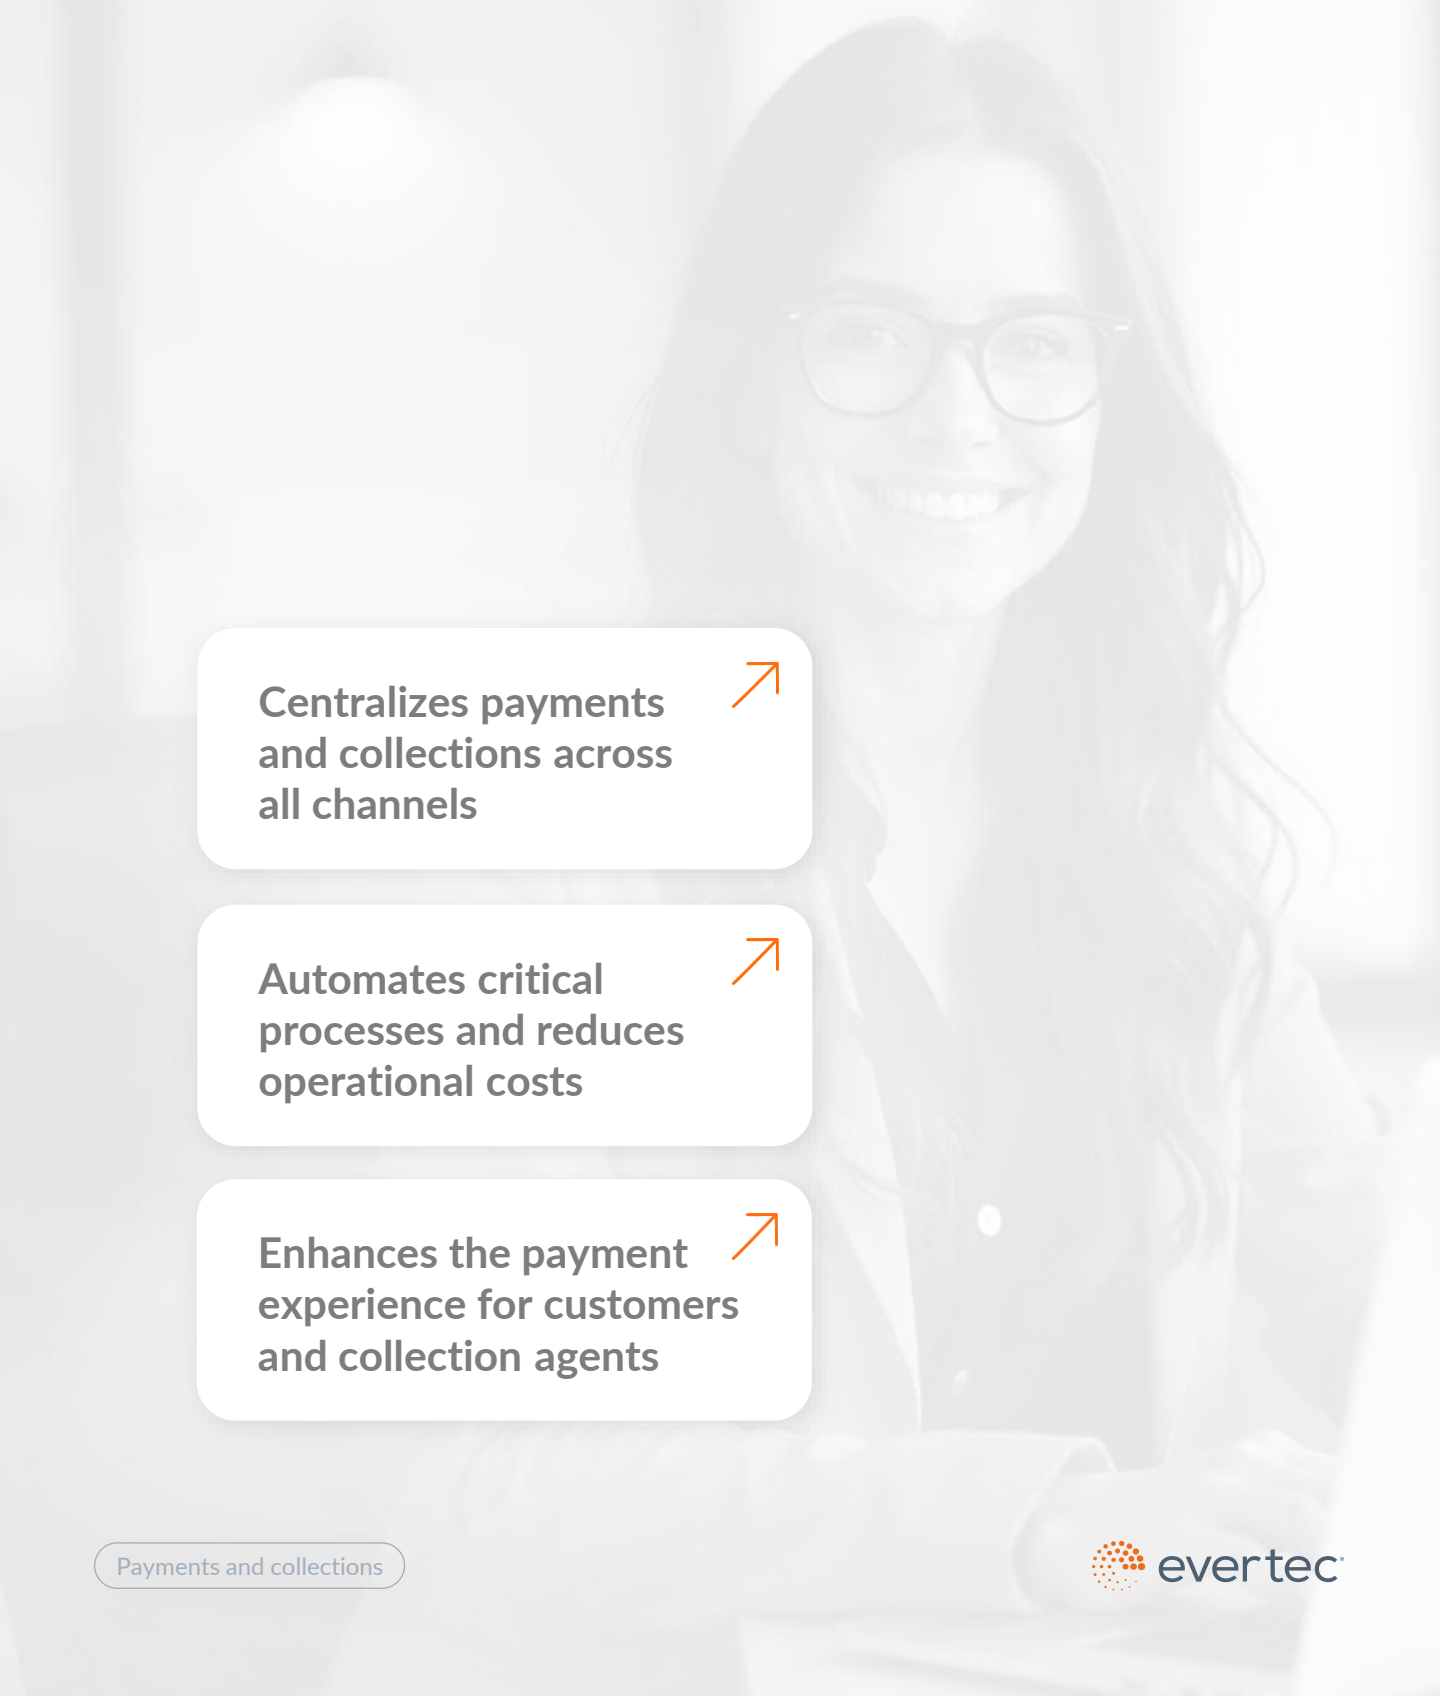

Increase efficiency and reduce costs with a solution that centralizes and automates payment and collection processes.

• Payments and collections

Integrates solutions to manage payments, transfers, and collection processes in a centralized, secure, and scalable way.

Through a single integration, it enables multiple payment channels and methods, automates Management from debt presentation to final reconciliation, and connects all transaction participants, improving operational efficiency and the user experience.

**Centralizes payments
and collections across
all channels**

**Automates critical
processes and reduces
operational costs**

**Enhances the payment
experience for customers
and collection agents**

A solution that makes a difference
