

DCC

Dynamic currency conversion for
different business segments and
verticals.

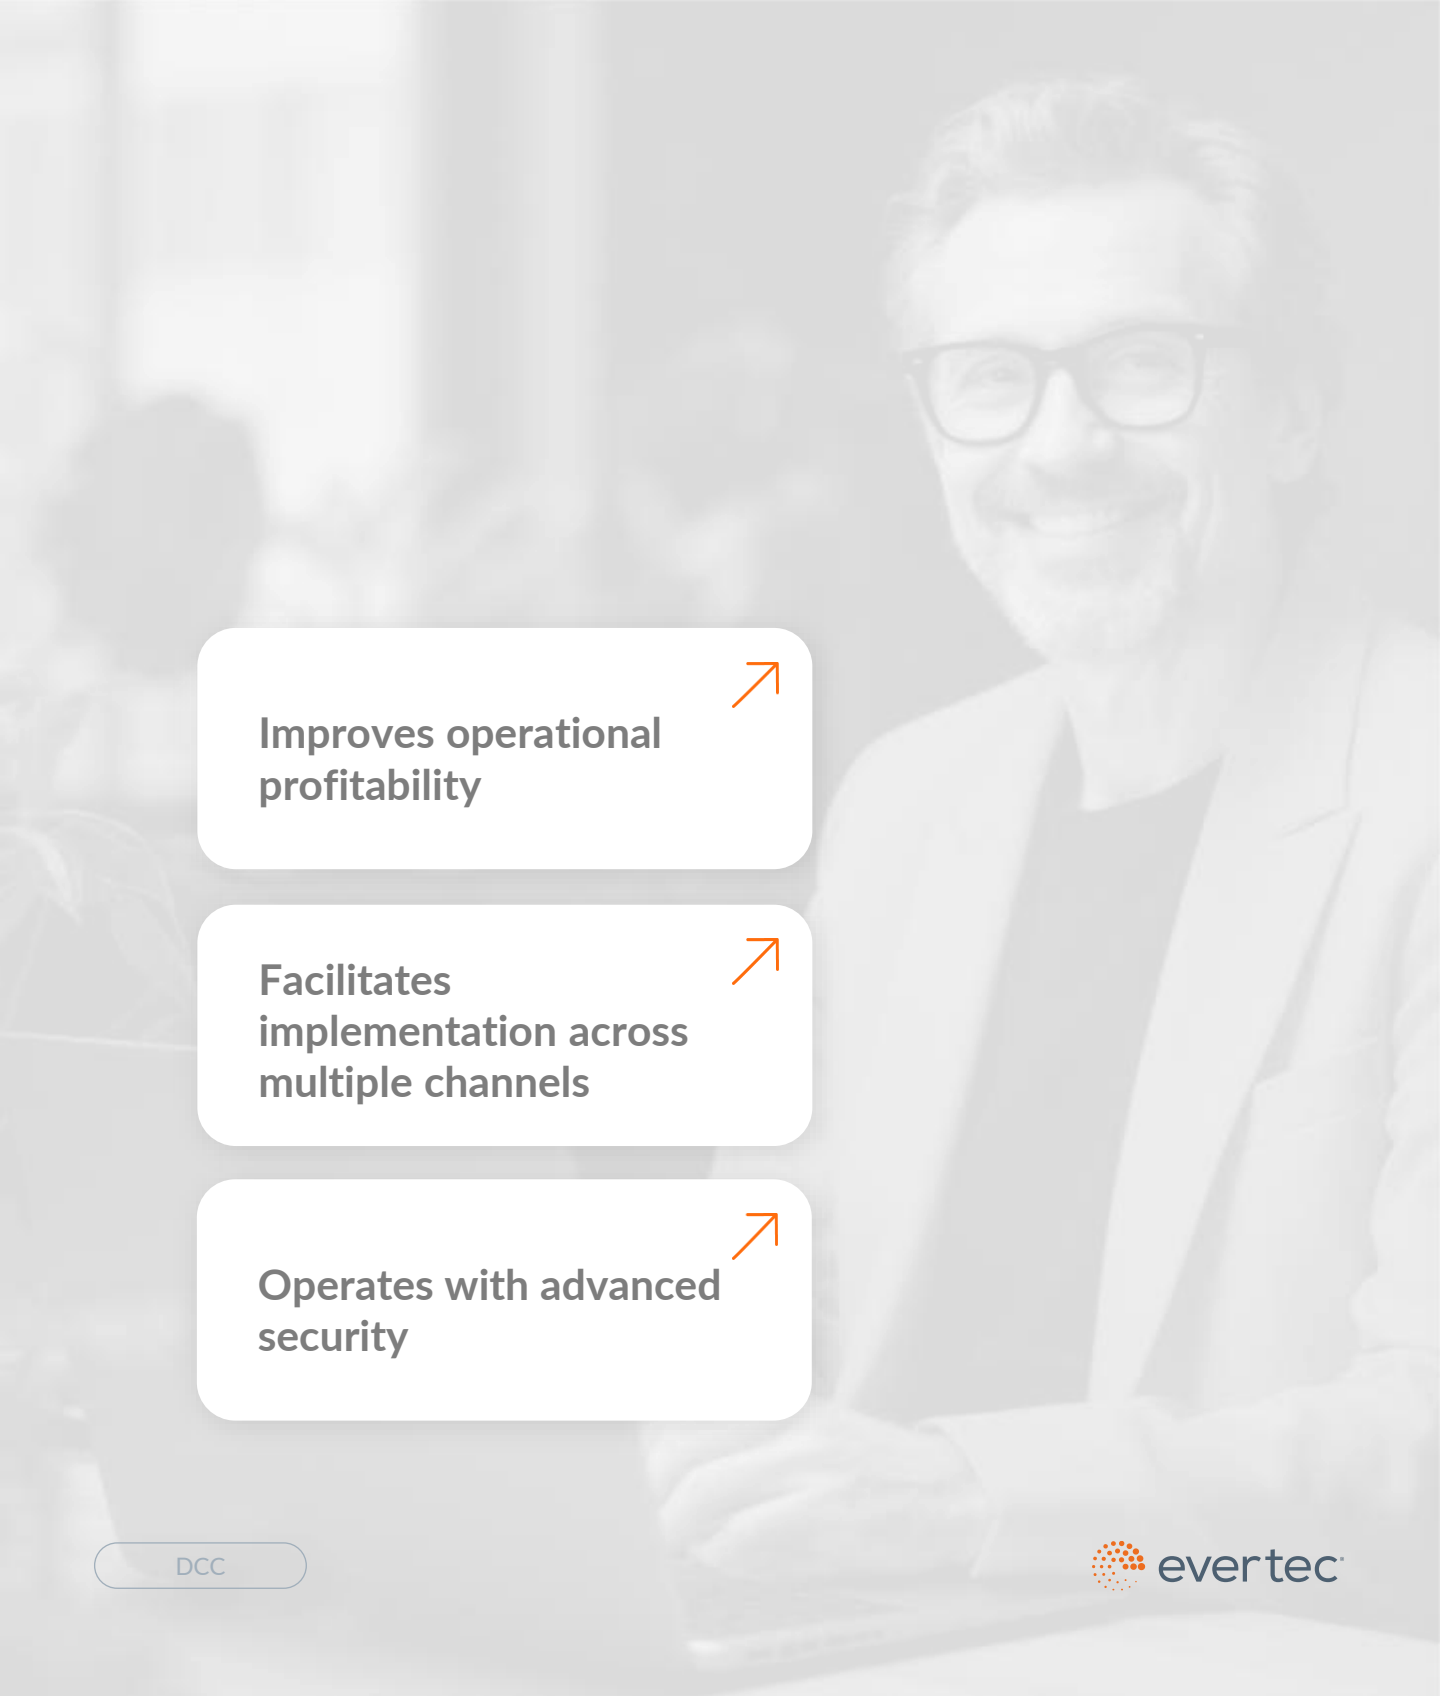

Dynamic Currency Conversion

DCC replaces the currency conversion carried out by international brands and issuers, transferring that revenue to the acquirer.

It also enables the cardholder to see and accept the exact amount of the purchase or withdrawal in their own currency at the time of transaction.

DCC

**Improves operational
profitability**

**Facilitates
implementation across
multiple channels**

**Operates with advanced
security**
