

Risk management

Anticipate, control, and reduce
fraud in every transaction

evertecinc.com

• Risk management

Prevent, detect, and manage fraud across the entire transaction lifecycle.

It combines advanced analytics, authentication, tokenization, and real-time monitoring to help you make better decisions, reduce losses, and comply with high security standards, without impacting the customer experience or business continuity

A solution that makes a difference

- ✓ Manage fraud prevention, detection, and mitigation across the entire transaction lifecycle
- ✓ Analyze and respond to risk in real time
- ✓ Protect operations without impacting the customer experience
- ✓ Centralize data, events, and alerts for unified control
- ✓ Adapt to your business growth and different operating models

Risk management

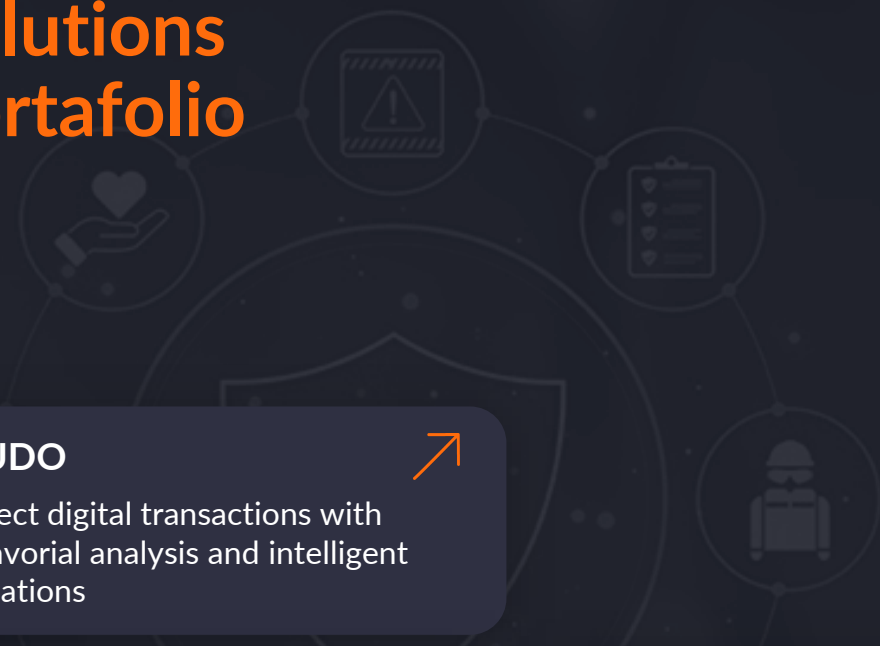

Advantages that strengthen your business

- ✓ **Reduce fraud-related losses** with intelligent controls
- ✓ **Improve visibility** with clear, actionable insights
- ✓ **Optimize operations** through automated processes
- ✓ **Comply with security standards** and strengthen trust
- ✓ **Protect the customer experience** without unnecessary friction
- ✓ **Increase approval** rates and conversion to drive profitability
