

A man with dark hair and glasses, wearing an orange blazer over a black shirt, is sitting at a wooden desk in a modern office. He is smiling at the camera while his hands are on a silver laptop. The background shows a glass-walled office space with other desks and chairs, slightly out of focus.

Cloud solutions, application development, and AI

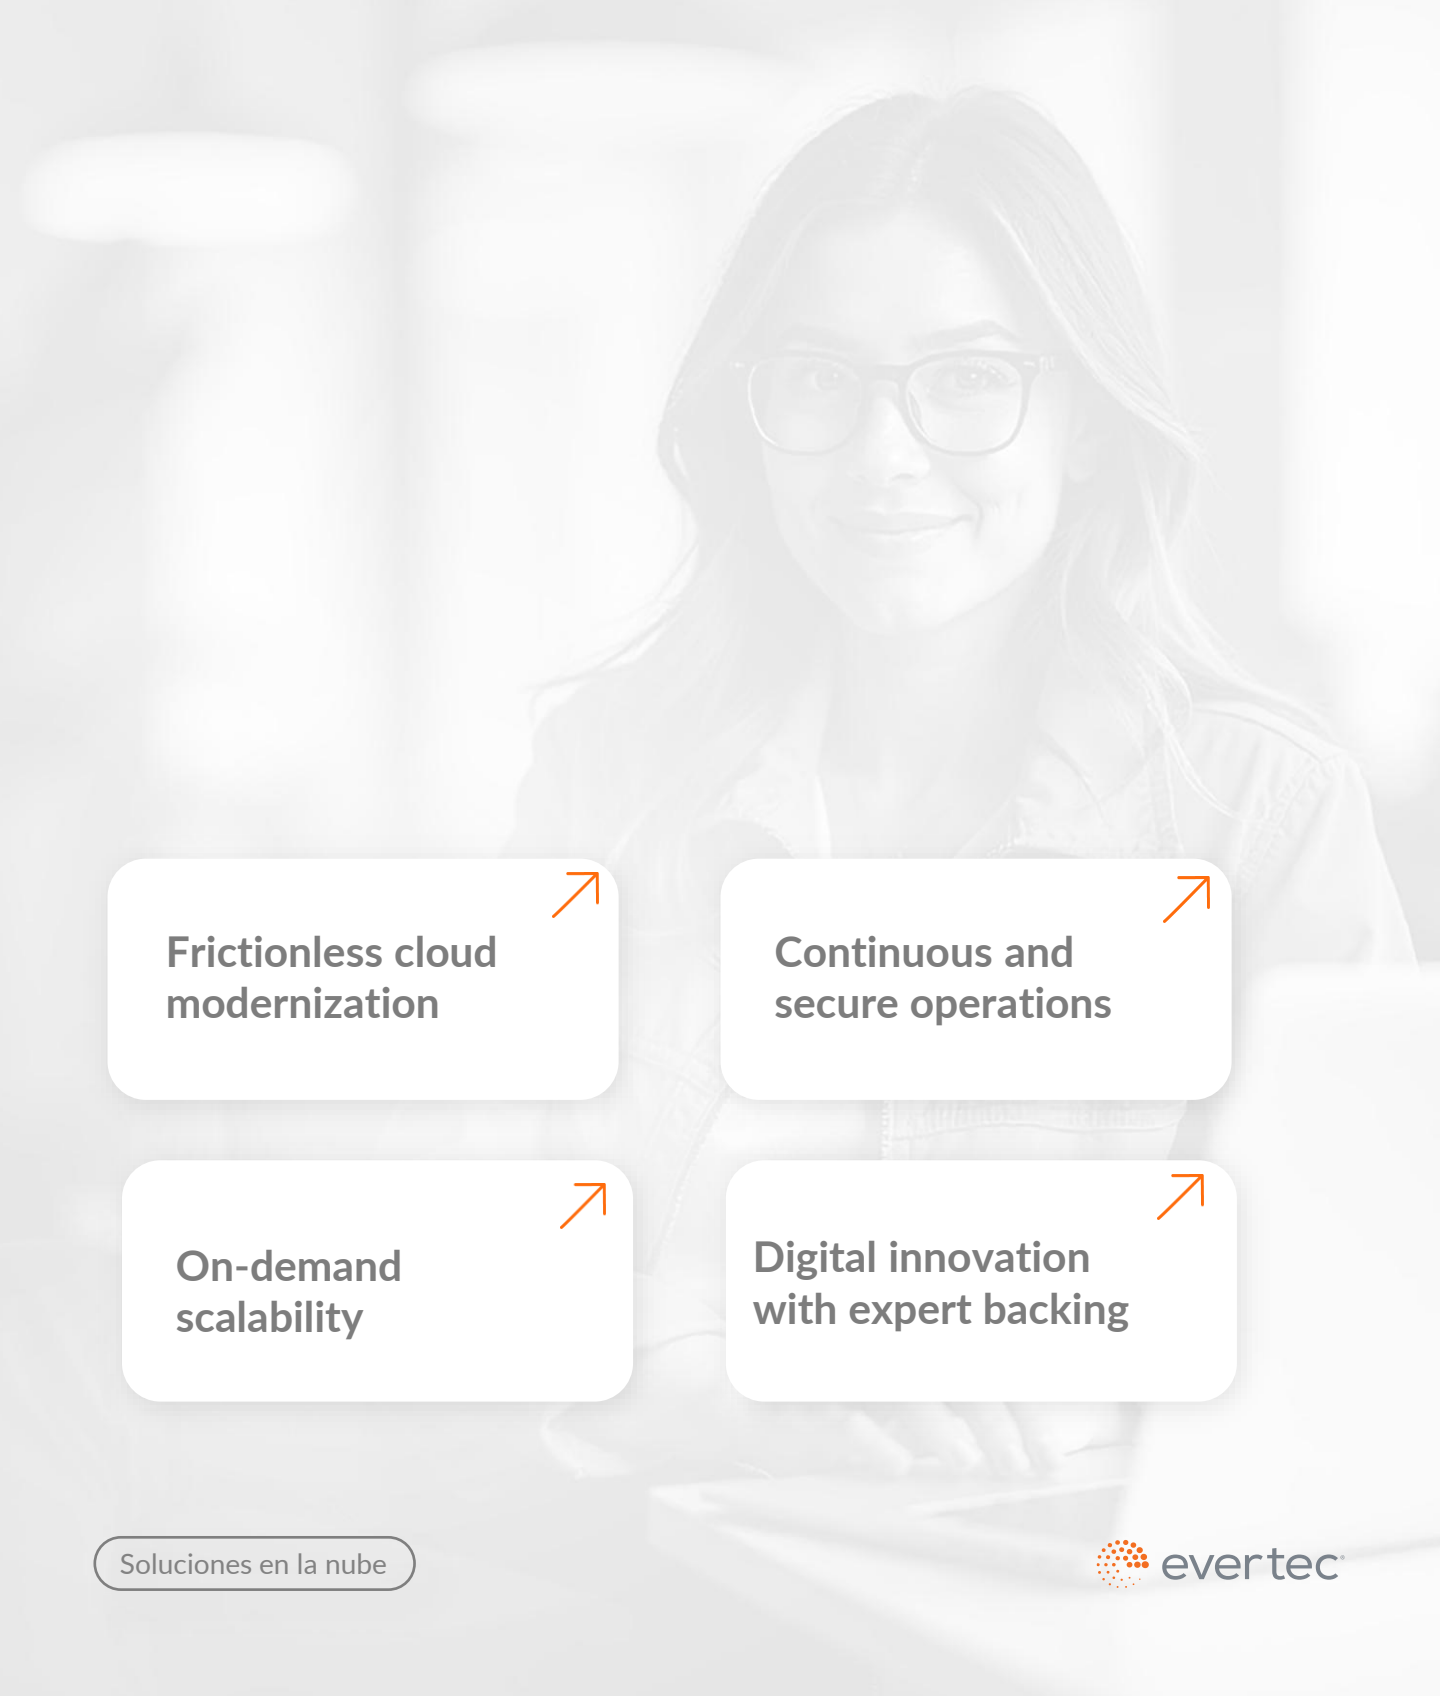

The cloud that accelerates your business with
security, agility, and control.

evertecinc.com

• Cloud solutions, application development, and AI

A solution designed to support organizations in the adoption, management, and optimization of cloud environments. Through a managed services model, Evertec handles operations, monitoring, security, and the evolution of infrastructure and applications, allowing teams to focus on their business objectives.

The solution combines operational expertise, proactive monitoring, and specialized support across leading platforms such as AWS and Microsoft Azure, ensuring continuity, efficiency, and control in cloud environments.

**Frictionless cloud
modernization**

**Continuous and
secure operations**

**On-demand
scalability**

**Digital innovation
with expert backing**

Soluciones en la nube

A solution that makes a difference

- ✓ **End-to-end cloud management**
supports the entire cloud adoption lifecycle, from design and migration to operation and continuous improvement.
- ✓ **Integrated security**
protects infrastructure and applications through monitoring, security controls, and regulatory compliance.
- ✓ **Agile development**
builds modern applications using DevSecOps practices and a time-to-market approach.
- ✓ **Datos and intelligence**
Integrates analytics, BI, and cognitive services to support data-driven decision-making
- ✓ **High availability**
ensures operational continuity through backup and disaster recovery services

Cloud Solutions

Benefits that strengthen your business

- ✓ **Operational agility:**
reduces deployment times and accelerates innovation.
- ✓ **Efficient scalability**
adjusts resources according to business demand.
- ✓ **Lower risk**
ensures operations with standards and continuous monitoring.
- ✓ **Cost optimization**
maximizes return on investment with a flexible model.
- ✓ **Focus on your core**
Evertec manages the technology, you manage the business.

Cloud Solutions

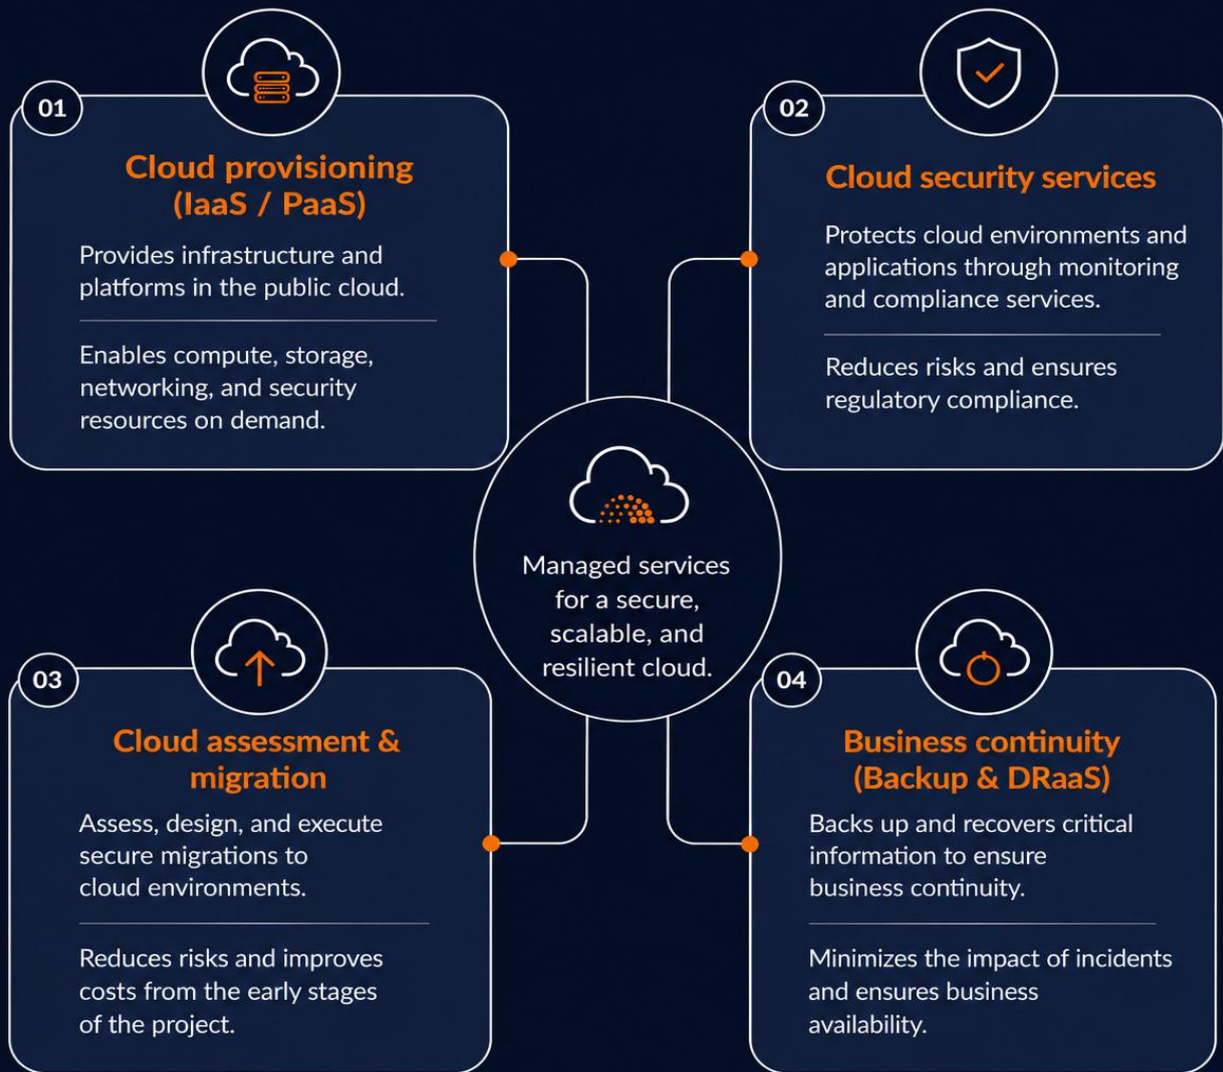

Regional presence

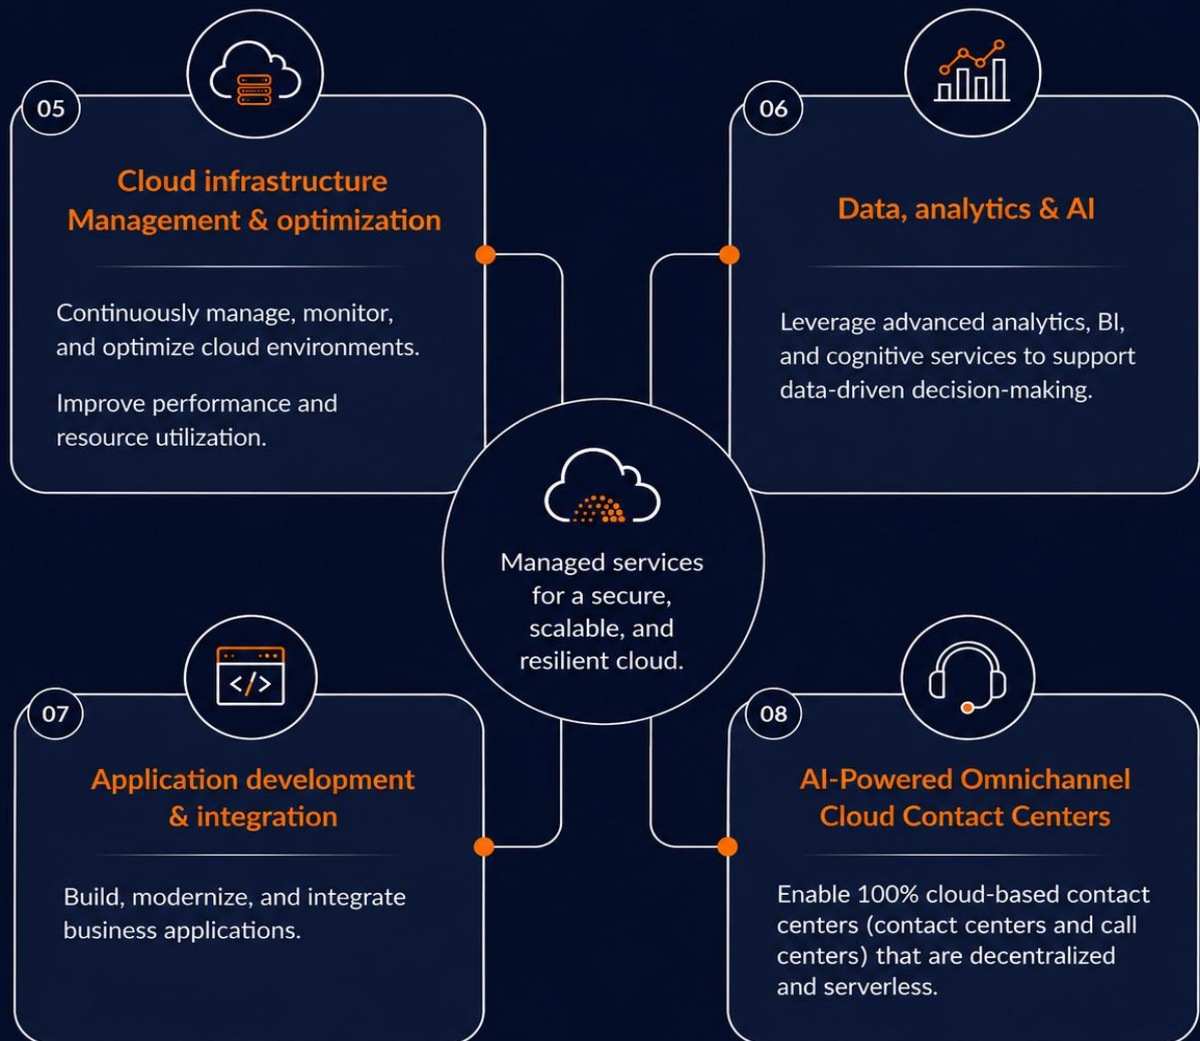

- Argentina
- Mexico
- Puerto Rico
- Dominican Republic

We serve acquirers, issuers, retailers, large-format retailers, and financial institutions.

Cloud Solutions

Technical sheet

Cloud infrastructure management

- Manage AWS and Azure environments
- Continuously monitor cloud services
- Manage capacity, availability, and performance
- Support hybrid infrastructures
- Optimize resources and costs
- Manage backup and recovery
- Access cloud advisory and migration services
- Receive guidance from Evertec specialists throughout the entire solution lifecycle

Managed cybersecurity

- Implement security strategies by design
- Manage threats and vulnerabilities
- Monitor security events and respond to incidents
- Manage firewall, WAF, and Anti-DDoS protection
- Protect identities and access

Technical sheet

Application development and integration

- Develop and modernize enterprise applications in cloud environments.
- Integrate applications and core systems through APIs and integration services
- Implement DevSecOps practices for continuous, secure, and automated development cycles.

Data, analytics, and intelligence

- Implement Business Intelligence and data visualization solutions for operational and strategic analysis.
- Develop advanced analytics models and cognitive services to optimize processes and decision-making.
- Integrate information from multiple sources to provide a unified view of the business.
